

Dear Parents,

The mCLASS Intervention Practice App helps kids practice early reading skills at home.

Kids working on decoding benefit from using the practice app. In most schools, kindergarteners, 1st graders and some 2nd and 3rd graders are working on decoding. Speak with your child's teacher if you're unsure if your child will benefit from using the practice app.

For kids working on decoding who show interest in using the practice app, we recommend 10 minutes per day for Kindergartners and 15 minutes per day for 1st, 2nd and 3rd graders.

#### **To use the app, you will need:**

- An iPhone or iPad with iOS 14.0 or higher
- Wifi connection
- Your child's QR code from his/her teacher

#### **Get Started:**

- Ask your child's teacher for his/her QR code log in if you don't already have it
- Download the practice app on an iPhone or iPad by searching for **Amplify mCLASS Intervention Practice App** in the App store (free download).
  - If your device isn't running iOS 14.0 or higher, update your device.
- Open the app and aim your device's camera at your child's QR code to log in.
